## OCEAN PLASTIC TUBES

Introducing sustainable packaging made with Ocean Plastic to help combat plastic pollution and ensure cleaner environments and oceans:

- Our HDPE Ocean Plastic is made from sustainably sourced, recycled HDPE, such as fishing nets, ropes and trawls pulled directly from the ocean and maritime industry.
- Recommended for multi-layer tubes using Ocean Plastic HDPE outer layer and Virgin PE inner layer.
- Maximum recommended percentage of Ocean Plastic HDPE outer layer is 50%.
- Available in 13mmD – 50mmD tubes.
- Our Ocean Plastic is suitable for a variety of printing options, such as offset print, silkscreen and hot stamp, as well as finish options, such as glossy, matte and soft touch.
- REACH and Prop 65 compliant.

*Note: Using Ocean Plastic can yield visual variations, such as pitting, black dots, color variation.*
