

ICONS|America

In-Mold Label (IML) Tubes

Injection molded tubes delivering
eco-edge and unlimited deco capabilities

- Manufactured by ICONS' domestic USA tube manufacturing facility ICONS|America

- Available in D35, D40, D50 sizes, round & oval shapes with flip-top snap-on, flip-top screw-on and screw-on caps

- Available in matte, glossy, combo and metallic effects + hot and cold stamping

- Mono-material PP tube, with option to add PCR for added sustainability

- Achieve 360° artwork that seamlessly extends over the shoulder (no halo) and a barely visible join line

ICONS | AMERICA

ICONS | AMERICA

Where innovation and sustainability meets aesthetics

Combining cutting-edge IML tube technology and domestic production, ICONS|America is paving the way to a sustainable future without compromising luxury. 360° tube decoration with virtually no limits, recyclable, mono-material & available with PCR.

Reduce, Reuse and Recycle

- 100% mono-material PP tubes & closures, available with PP PCR (Post-consumer recycled)
- Meets APR and Recyclass recycling guidelines
- No waste facility with recycled and reused regrind PP material

USA Manufacturing Solution

- Domestic USA manufacturing facility reduces carbon footprint, shortens shipment lead-times & lowers shipping costs to N. American locations
- Domestically sourced resin and label raw materials further reduce carbon footprint
- Over 160,000 sq ft SMART manufacturing facility
- ISCC PLUS Certified

In-Mold Label (IML) Technology

- IML technology is a 100% automated, in-line process enhancing production speed
- Virtually unlimited graphic possibilities and luxury finishing
- Full surface tube decoration, from shoulder to crimp
- Decorate over the shoulder (no halo) and seamless label join line
